I'm a Full Stack Developer with hands-on experience building web apps from start to finish. I work with React.js and Next.js on the frontend, and use Prisma, PostgreSQL, and Redis on the backend. I care about writing clean code and shipping things that are fast, reliable, and easy to maintain.

## SKILLS

**Languages:** JavaScript, TypeScript

**Frontend:** NextJS, React.js, Redux, Tailwind CSS

**Backend (familiarity):** NodeJS, ExpressJS

**Database & Tools:** PostgreSQL, Redis, Prisma, Azure

## EXPERIENCE

### FULL STACK DEVELOPER — INTREPIDE AI (DEC 2025 – PRESENT)

- Built full-stack applications using Next.js, Prisma, PostgreSQL, and Redis
- Designed and developed REST APIs with Node.js and Express
- Implemented caching and performance optimization using Redis
- Deployed and managed applications on Azure

### FRONTEND DEVELOPER — SOFTVENCE AGENCY (APR 2025 – DEC 2025)

- Develop responsive, high-performance web applications using React.js and Next.js
- Collaborate with backend engineers and designers to deliver client projects
- Optimize frontend performance and implement reusable UI components
- Ensure cross-browser compatibility and responsive design

## MY PROJECTS

### SNAPBUY — FULL-STACK E-COMMERCE PLATFORM

[Live](#) | [Github](#)

Next.js, TypeScript, Prisma, PostgreSQL, NextAuth, Zod

- Built admin dashboard for product management (add, edit, delete)
- Integrated secure payments via PayPal (sandbox) and Stripe
- Implemented user authentication and authorization

### HEADLINE HUB — REAL-TIME NEWS AGGREGATION APP

[Live](#) | [Client Github](#) | [Server Github](#)

MongoDB, Express.js, React.js, Node.js

- Real-time news updates, categorization
- Search functionality, user authentication, social media sharing
- Implemented user authentication and authorization for secure access

## EDUCATION

### National University

- Currently studying in Narayanganj College, Department Of Political Science
